PROFESSIONAL SUMMARY

Computer Engineering graduate with hands-on experience in Data Engineering, Python development, SQL, ETL pipelines, and data analytics. Experienced in building data processing workflows, backend APIs, and scalable applications using Python, SQL, Pandas, NumPy, and cloud technologies. Strong understanding of relational databases, data transformation, data validation, and software engineering principles. Passionate about building reliable data platforms and enabling data-driven decision-making through efficient data pipelines and analytics solutions.

TECHNICAL SKILLS

Programming Languages: Python, SQL, Java, JavaScript.

Data Engineering: ETL/ELT Pipelines, Data Processing, Data Transformation, Data Validation, Data Analytics, Data Integration, Data Modeling Fundamentals.

Libraries & Frameworks: Pandas, NumPy, Flask, Fast API, Scikit-learn.

Databases: MySQL, PostgreSQL, MongoDB.

Cloud & DevOps: Oracle Cloud Infrastructure (OCI), Docker, Git, GitHub, Linux, CI/CD Fundamentals.

Tools: Streamlit, n8n, Jupyter Notebook

PROFESSIONAL EXPERIENCE

AI/ML Developer Intern

Blue Planet Info Solution Pvt. Ltd.

Oct 2025 – Present

- Developed Python-based applications and backend services for data-driven solutions.
- Built automated data processing workflows involving data collection, transformation, and validation.
- Designed REST APIs using Flask and Fast API for application integration.
- Worked with relational databases and SQL queries for efficient data retrieval and reporting.
- Collaborated within Agile development teams following SDLC best practices.

Data Science & AI/ML Intern

YBI Foundation

Oct 2024 – Nov 2024

- Performed data cleaning, preprocessing, and exploratory data analysis using Python and Pandas.
- Developed machine learning models and evaluated performance using industry-standard techniques.
- Built data processing pipelines for structured datasets.
- Generated reports and insights from large datasets to support decision-making.

PROJECTS

Retail Shelf Intelligence Pipeline:

Python, Pandas, YOLOv8, EasyOCR

- Developed an end-to-end data processing pipeline for retail shelf analytics.
- Automated data extraction, transformation, validation, and reporting workflows.
- Processed large image datasets and generated structured JSON outputs for analytics.
- Created business intelligence reports and shelf-share analytics from processed data.

AI Powered PowerPoint Presentation Generator:

Python, Streamlit, n8n, Automation

- Built an automated workflow system that transforms user input into structured presentation outputs.
- Designed reusable data transformation pipelines and automated content generation workflows.
- Implemented modular architecture for scalable data processing and automation.

Wild Eye AI – Intelligent Image Processing Pipeline

Python, TensorFlow, OpenCV

- Designed and developed a complete image data pipeline involving data collection, preprocessing, transformation, and model inference.
- Automated image validation, feature extraction, and prediction workflows using Python and OpenCV.
- Built and optimized deep learning models using TensorFlow for wildlife classification tasks.

Digital Wallet System:

Flask, MySQL

- Designed and developed a database-driven application using Flask and MySQL.
- Created relational database schemas and optimized SQL queries.
- Implemented secure transaction management and data validation mechanisms.

EDUCATION

Bachelor of Technology (B. Tech) – Computer Engineering

Dr. Babasaheb Ambedkar Technological University (DBATU)

CGPA: 8.34/10

Diploma in Computer Engineering

Shri Gulabrao Deokar Polytechnic

Percentage: 73%

CERTIFICATIONS

- Oracle Cloud Infrastructure Generative AI Professional
- Anthropic AI Fluency Certification
- McKinsey Forward Program
- Machine Learning and Data Science Certifications

ACHIEVEMENTS

- Developed multiple data-driven applications involving ETL pipelines, analytics, and backend engineering.
- Built production-ready APIs and automated workflows using Python.
- Strong foundation in SQL, databases, data processing, and software development practices.
